# Home Report

**Property address:** Pierowall Cottage  
Pierowall  
Westray  
Orkney  
KW17 2BZ

**Customer:**

**Address:**

**Date of inspection:** 27<sup>th</sup> September 2023

## 1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without the need to move any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right are taken facing the front of the property.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. were not inspected or reported on.

<b>Description</b>	A two-bedroomed property, consisting of a stone-built cottage and block-built extension. The eastern gable of the original cottage is connected to the neighbouring property, which is currently a store.
<b>Accommodation</b>	Sitting Room/Kitchen, Two (2nr) Bedrooms, Shower Room, Hall.
<b>Gross internal floor area (m<sup>2</sup>)</b>	The gross internal floor area of the residential part of the property is approximately 47m <sup>2</sup> .
<b>Neighbourhood and location</b>	The property is situated in Pierowall in Westray, which is one of Orkney's north isles. A good range of services are available in Westray, including a Primary/Junior Secondary School, shops, a hotel, and a Doctor's Surgery. Westray is connected to the Orkney Mainland by a regular ro-ro ferry service, and inter-island flights.
<b>Age</b>	The original part of the property is likely to date from the early Twentieth Century; the extension is assumed to be around 50 years old.
<b>Weather</b>	The weather was dry and bright, following a period of changeable weather.

### Chimney stacks

There are two (2nr) chimney stacks, one to each gable wall of the original cottage. Both chimneys appear to be stone built with brick extensions, and clay chimney cans.  
The

*Visually inspected with the use of binoculars **where appropriate.***

### Roofing including roof space

Pitched timber framed roof structures to both parts of the property.  
To the original cottage, the roof consists of a timber roof structure with purlins, clad with Caithness slate.  
Timber sarking boards and fibre-cement slates to the extension.  
Clay ridge tiles, with concrete skews.  
Leadwork to the valley gutter.  
Fibreglass insulation to the ceiling joists to both roof areas.  
The roof space is accessed via a ceiling hatch in the Hall.

*Sloping roofs were visually inspected with the aid of binoculars **where appropriate.***

*Head and shoulders inspection of the roof space only.*

*Limited access to inspect the roof space over the original cottage.*

### Rainwater fittings

uPVC gutters and down pipes.  
Cast iron rise and fall brackets are still in place.

*Visually inspected with the aid of binoculars **where appropriate.***

### Main walls

Stone-built external walls to the original cottage; assumed cavity blockwork to the extension.  
Walls are harled externally, with masonry paint to the front elevations.

*Visually inspected with the aid of binoculars **where appropriate.***

*Foundations and concealed parts were not exposed or inspected.*

### Windows, external doors and joinery

uPVC double glazed windows of varying ages; uPVC external door.

*Internal and external doors were opened and closed where keys were available.*

*Random windows were opened and closed where possible.*

### External decorations

The front elevations are finished with masonry paint.  
The external cast iron SVP and drain are painted.

*Visually inspected.*

<b>Conservatories / porches</b>	<p>There are no conservatories or porches.</p> <p><i>Visually inspected.</i></p>
<b>Communal areas</b>	<p>The access track into the property is shared with the neighbouring properties.</p> <p><i>Circulation areas visually inspected.</i></p>
<b>Garages and permanent outbuildings</b>	<p>There are no garages or permanent outbuildings.</p> <p>At the time of inspection, there was a timber garden shed to the southern gable of the extension.</p> <p><i>Visually inspected.</i></p>
<b>Outside areas and boundaries</b>	<p>Shared tarred track into the property.</p> <p>There is understood to be one designated car parking space adjacent to the front door; this should be confirmed.</p> <p>Concrete paths to the front elevations; flagstones to the rear.</p> <p>There is a small drying area to the south of the house.</p> <p><i>Visually inspected.</i></p>
<b>Ceilings</b>	<p>The ceilings are lined with lath &amp; plaster, or plasterboard.</p> <p><i>Visually inspected from floor level.</i></p>
<b>Internal walls</b>	<p>Interior walls and partitions are timber framed and lined with lath &amp; plaster, or plasterboard.</p> <p><i>Visually inspected from floor level.</i></p> <p><i>Using a moisture meter, walls were randomly tested for dampness where considered appropriate.</i></p>
<b>Floors including sub floors</b>	<p>Suspended timber floor to the original part of the property; solid concrete floor to the extension.</p> <p><i>Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.</i></p> <p><i>No access to inspect the sub-floor areas.</i></p>

### Internal joinery and kitchen fittings

Fitted floor and wall units to the Kitchen.  
Vanity unit to the wash hand basin in the Shower Room.  
Softwood skirtings and facings.  
Board effect oak interior doors.

*Built-in cupboards were looked into but no stored items were moved.*

*Kitchen units were visually inspected excluding appliances.*

### Chimney breasts and fireplaces

There is a boarded-up fireplace in the Sitting Room, consisting of a flagstone hearth and timber surround.  
The fireplace was fitted with an electric focal point heater at the time of inspection.

*Visually inspected. No testing of the flues or fittings was carried out.*

### Internal decorations

Internal walls and ceilings are painted; woodwork is varnished or painted.  
Floor coverings consist of wood effect vinyl or carpet.  
Wall and ceiling panelling to the Shower Room.  
Vinyl splashbacks to the Kitchen units.

*Visually inspected.*

### Cellars

There are no cellars.

*Visually inspected where there was safe and purpose-built access.*

### Electricity

The property is served by a mains electricity supply to a distribution board and a single tariff meter in a cupboard in one Bedroom.

Stainless steel extractor hood to the Kitchen; extractor fan to the Shower Room.

Electric hob and oven fitted in the Kitchen.

*Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.*

### Gas

There is no mains gas in Orkney.  
No Calor Gas installation at the property.

*Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.*

### Water, plumbing and bathroom fittings

There is a mains water supply to the property.  
The pipework, where visible, is of copper and uPVC construction.  
Sanitary ware includes:  
Kitchen/Dining Room: single bowl stainless steel sink and drainer.  
Shower Room: electric shower with tray and cabinet, wash-hand basin in vanity unit, WC.  
Disused cold water header tank in the roof space.  
External cast iron SVP and drain outside the Shower Room wall.

*Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation. No tests whatsoever were carried out to the system or appliances.*

### Heating and hot water

The house is heated by an air source heat pump to the rear elevation, with internal air-to-air units in the Sitting Room and Hall.  
Electric focal point heater in the Sitting Room.

Instantaneous water heater under the Kitchen sink.

*Accessible parts of the system were visually inspected apart from communal systems, which were not inspected. No tests whatsoever were carried out to the system or appliances.*

### Drainage

Drainage is understood to connect to the public sewerage network.

*Drainage covers etc were not lifted. Neither drains nor drainage systems were tested.*

### Fire, smoke and burglar alarms

Smoke detector fitted to the Hall; high heat alarm to the Kitchen.

*Visually inspected. No tests whatsoever were carried out to the system or appliances.*

### **Any additional limits to inspection:**

*At the time of our inspection the property was occupied and fully furnished with floors fully covered throughout.*

*Pitched roof coverings were inspected from ground level; a detailed inspection of condition was not undertaken.*

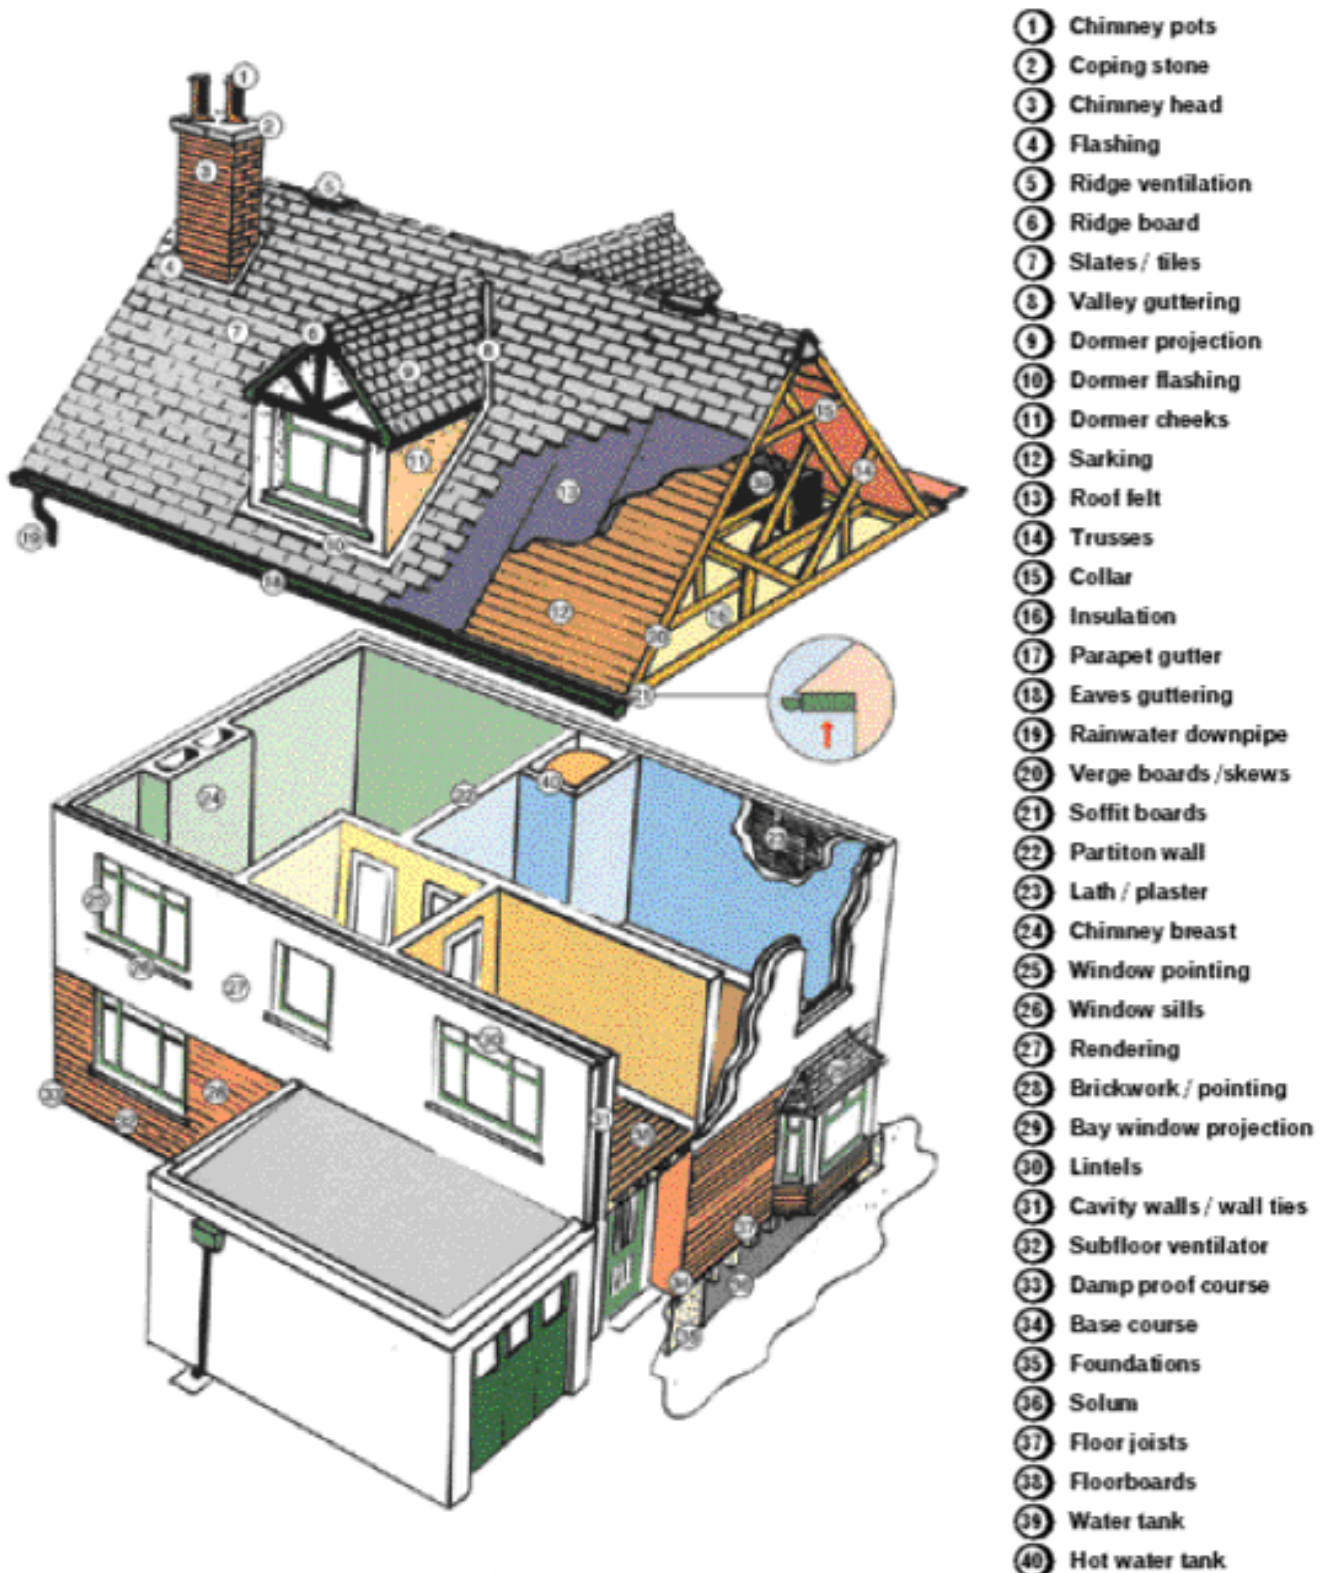

*An inspection for Japanese Knotweed or other invasive plant species was not carried out.*

*There was no access for inspection to the foundations or behind wall linings.*

*The drainage system was not open to inspection.*

*High levels of Radon gas have been recorded in areas of Orkney. No tests were carried out to detect the levels of gas in the property.*

## Sectional diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these terms.

**2. CONDITION**

This section identifies problems and tells you about the urgency of any repairs by using one of three categories.

<b>Category 3</b>	<b>Category 2</b>	<b>Category 1</b>
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.
 <b>Structural movement</b>		
Repair category	1	
Notes:	No significant defects noted.	
 <b>Dampness, rot and infestation</b>		
Repair category	2	
Notes:	Signs of woodworm activity noted to the roof timbers. Dampness noted to timber sarking in the roof space, with some rot evident. Signs of condensation noted to external walls and window ingoes in places. Moderate moisture readings obtained from external walls; high levels from the concrete floor to the extension.	
 <b>Chimney stacks</b>		
Repair category:	2	
Notes:	Cracks noted to the concrete copes; flagstone cappings are weathered. No leadwork flashings to the bases of the chimneys. The chimneys do not appear to have been capped. Disused chimneys should be fitted with ventilated caps and ventilation installed at room level.	
 <b>Roofing including roof space</b>		
Repair category:	2	
Notes:	Cracked Caithness slates noted; pointing is cracked and loose in places. The fibre cement slates to the extension appear weathered.	
 <b>Rainwater fittings</b>		
Repair category:	2	
Notes:	The uPVC gutters and downpipes appear weathered but serviceable. Some vegetation noted to the gutters. Makeshift downpipe to the north elevation of the original cottage. Running outlet to the rear elevation is close to the cast iron SVP and may be contributing to the corrosion issues. The older cast iron rise and fall brackets are extensively corroded and have cracked the external wall render.	

## SINGLE SURVEY

 <b>Main walls</b>	
Repair category:	3
Notes:	Cracks noted to the render throughout. Significant cracking noted to the external wall around the lintol and cill to the window to the western gable of the original cottage. Poor detail to the external cill of the windows to the original cottage, with render over the face of the cill; this may allow water to penetrate behind the render.
 <b>Windows, external doors and joinery</b>	
Repair category:	2
Notes:	Some signs of condensation noted between the panes of the Shower Room window. Window handle is loose to the Shower Room window; front door handle is loose. Corrosion noted to window ironmongery.
 <b>External decorations</b>	
Repair category:	3
Notes:	The decoration to the external SVP and drain is extensively weathered.
 <b>Conservatories / porches</b>	
Repair category:	N/A
Notes:	There are no conservatories or porches.
 <b>Communal areas</b>	
Repair category:	1
Notes:	No significant defects noted.
 <b>Garages and permanent outbuildings</b>	
Repair category:	N/A
Notes:	There are no garages or permanent outbuildings.
 <b>Outside areas and boundaries</b>	
Repair category:	2
Notes:	Corrosion noted to the handrail to the front door. Flagstones to the rear elevation are loose and uneven.

## SINGLE SURVEY

 <b>Ceilings</b>	
Repair category:	1
Notes:	No significant defects noted.
 <b>Internal walls</b>	
Repair category:	1
Notes:	No significant defects noted.
 <b>Floors including sub-floors</b>	
Repair category:	2
Notes:	The floor to the Bedroom in the original cottage feels uneven underfoot. There do not appear to be any underfloor vents for the timber floor to the original cottage.
 <b>Internal joinery and kitchen fittings</b>	
Repair category:	1
Notes:	Door handle to the Shower Room door sticks.
 <b>Chimney breasts and fireplaces</b>	
Repair category:	1
Notes:	No significant defects noted. Disused fireplaces should be vented.
 <b>Internal decorations</b>	
Repair category:	1
Notes:	Minor damage to decoration caused by dampness and condensation.
 <b>Cellars</b>	
Repair category:	N/A
Notes:	There are no cellars.
 <b>Electricity</b>	
Repair category:	3
Notes:	Socket tester indicated an issue with the loop test to one of the Kitchen sockets.

## SINGLE SURVEY

	<b>Gas</b>
Repair category:	N/A
Notes:	There is no gas installation.
	<b>Water, plumbing and bathroom fittings</b>
Repair category:	1
Notes:	The plumbing installation was not tested.
	<b>Heating and hot water</b>
Repair category:	1
Notes:	The heating system was not tested.
	<b>Drainage</b>
Repair category:	3
Notes:	External SVP's are extensively corroded.

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

<b>Structural movement</b>	<b>1</b>
<b>Dampness, rot and infestation</b>	<b>2</b>
<b>Chimney stacks</b>	<b>2</b>
<b>Roofing including roof space</b>	<b>2</b>
<b>Rainwater fittings</b>	<b>2</b>
<b>Main walls</b>	<b>3</b>
<b>Windows, external doors and joinery</b>	<b>2</b>
<b>External decorations</b>	<b>3</b>
<b>Conservatories / porches</b>	<b>N/A</b>
<b>Communal areas</b>	<b>1</b>
<b>Garages and permanent outbuildings</b>	<b>N/A</b>
<b>Outside areas and boundaries</b>	<b>2</b>
<b>Ceilings</b>	<b>1</b>
<b>Internal walls</b>	<b>1</b>
<b>Floors including sub-floors</b>	<b>2</b>
<b>Internal joinery and kitchen fittings</b>	<b>1</b>
<b>Chimney breasts and fireplaces</b>	<b>1</b>
<b>Internal decorations</b>	<b>1</b>
<b>Cellars</b>	<b>N/A</b>
<b>Electricity</b>	<b>3</b>
<b>Gas</b>	<b>N/A</b>
<b>Water, plumbing and bathroom fittings</b>	<b>1</b>
<b>Heating and hot water</b>	<b>1</b>
<b>Drainage</b>	<b>3</b>

**Repair Categories**

**Category 3:**

Urgent Repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

**Category 2:**

Repairs or replacement requiring future attention, but estimates are still advised.

**Category 1:**

No immediate action or repair is needed.

**Remember**

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

**Warning**

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

**3. ACCESSIBILITY INFORMATION**

Guidance Notes on Accessibility Information

Three steps or fewer to a main entrance door of the property: In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres: For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes: Parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

<b>1. Which floor(s) is the living accommodation on?</b>	<b>Ground</b>
<b>2. Are there three steps or fewer to a main entrance door of the property?</b>	<b>Yes</b>
<b>3. Is there a lift to the main entrance door of the property?</b>	<b>No</b>
<b>4. Are all door openings greater than 750mm?</b>	<b>No</b>
<b>5. Is there a toilet on the same level as the living room and kitchen?</b>	<b>Yes</b>
<b>6. Is there a toilet on the same level as a bedroom?</b>	<b>Yes</b>
<b>7. Are all rooms on the same level with no internal steps or stairs?</b>	<b>Yes</b>
<b>8. Is there unrestricted parking within 25 metres of an entrance door to the building?</b>	<b>Yes</b>

#### 4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

##### Matters for a solicitor or licensed conveyancer

Check

- Rights and responsibilities for mutual parts, boundaries etc.
- That the Title is clean and Heritable with no onerous burdens or conditions.

##### Estimated re-instatement cost for insurance purposes

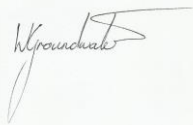

£150,000 (One Hundred and Fifty Thousand Pounds).

##### Valuation and market comments

The market value of the property as described in this report is £120,000 (One Hundred and Twenty Thousand Pounds).

This figure assumes vacant possession and that the property is unaffected by adverse planning proposals, onerous burdens, title restrictions and servitude rights.

Signed

# Energy Performance Certificate (EPC)

# Scotland

Dwellings

PIEROWALL COTTAGE, WESTRAY, ORKNEY, KW17 2BZ

**Dwelling type:** Detached bungalow  
**Date of assessment:** 11 July 2020  
**Date of certificate:** 27 July 2020  
**Total floor area:** 48 m<sup>2</sup>  
**Primary Energy Indicator:** 278 kWh/m<sup>2</sup>/year

**Reference number:** 0100-2839-1030-2590-7701  
**Type of assessment:** RdSAP, existing dwelling  
**Approved Organisation:** Elmhurst  
**Main heating and fuel:** Air source heat pump, warm air, electric

## You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO<sub>2</sub> emissions by improving your home

<b>Estimated energy costs for your home for 3 years*</b>	<b>£2,136</b>	See your recommendations report for more information
<b>Over 3 years you could save*</b>	<b>£294</b>	

\* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

## Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band C (71)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

## Environmental Impact (CO<sub>2</sub>) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band C (74)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

## Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Solar water heating	£4,000 - £6,000	£291.00
2 Solar photovoltaic (PV) panels	£3,500 - £5,500	£891.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit [greenerscotland.org](http://greenerscotland.org) or contact Home Energy Scotland on 0808 808 2282.

**THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE**

## Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Sandstone or limestone, as built, insulated (assumed)	★★★★★	★★★★★
	Cavity wall, as built, insulated (assumed)	★★★★★	★★★★★
Roof	Pitched, 250 mm loft insulation	★★★★☆	★★★★☆
Floor	Suspended, insulated (assumed)	—	—
	Solid, insulated (assumed)	—	—
Windows	Fully double glazed	★★★★☆	★★★★☆
Main heating	Air source heat pump, warm air, electric	★★★☆☆	★★★★☆
Main heating controls	Time and temperature zone control	★★★★★	★★★★★
Secondary heating	Room heaters, electric	—	—
Hot water	Electric instantaneous at point of use	★☆☆☆☆	★★☆☆☆
Lighting	Low energy lighting in all fixed outlets	★★★★★	★★★★★

## The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO<sub>2</sub> emissions, running costs and the savings possible from making improvements.

## The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 47 kg CO<sub>2</sub>/m<sup>2</sup>/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 2.2 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 1.1 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

### Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£1,461 over 3 years	£1,461 over 3 years	
Hot water	£546 over 3 years	£252 over 3 years	
Lighting	£129 over 3 years	£129 over 3 years	
<b>Totals</b>	<b>£2,136</b>	<b>£1,842</b>	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

### Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Solar water heating	£4,000 - £6,000	£97		
2 Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£297		

### Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to [www.greenerscotland.org](http://www.greenerscotland.org).

## About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

### 1 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at [www.microgenerationcertification.org](http://www.microgenerationcertification.org).

### 2 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at [www.microgenerationcertification.org](http://www.microgenerationcertification.org).

## Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

### LZC energy sources present:

- Air source heat pump

## Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	4,722	N/A	N/A	N/A
Water heating (kWh per year)	1,022			

## About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst ([www.elmhurstenergy.co.uk](http://www.elmhurstenergy.co.uk)), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting [www.scottishepcregister.org.uk](http://www.scottishepcregister.org.uk) and entering the report reference number (RRN) printed at the top of this page.

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

## Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at [www.scottishepcregister.org.uk](http://www.scottishepcregister.org.uk), with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at [www.gov.scot/epc](http://www.gov.scot/epc).

## Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greenerScotland.org](http://greenerScotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

<b>Property Address</b>	Pierowall Cottage Westray KW172DZ
<b>Seller(s)</b>	K.Allan Properties
<b>Completion date of Property Questionnaire</b>	29.09.23

## Note for sellers

- Please complete this form carefully. It is important your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell you solicitor or estate agent immediately.

## Information to be given to prospective buyer(s)

<b>1.</b>	<b>Length of Ownership</b>
	<p>How long have you owned the property? <input style="width: 150px;" type="text" value="19/08/16"/></p>
<b>2.</b>	<b>Council Tax</b>
	<p>Which Council Tax band is your property in?</p> <p> <input checked="" type="checkbox"/> A                <input type="checkbox"/> B                <input type="checkbox"/> C                <input type="checkbox"/> D                <input type="checkbox"/> E                <input type="checkbox"/> F                <input type="checkbox"/> G                <input type="checkbox"/> H         </p>
<b>3.</b>	<b>Parking</b>
	<p>What are the arrangements for parking at your property?</p> <p>(Please tick all that apply)</p> <p>Garage <input type="checkbox"/></p> <p>Allocated parking space <input checked="" type="checkbox"/></p> <p>Driveway <input type="checkbox"/></p> <p>On street <input type="checkbox"/></p> <p>Resident Permit <input type="checkbox"/></p> <p>Metered parking <input type="checkbox"/></p> <p>Shared parking <input type="checkbox"/></p> <p>Other (please specify) <input style="width: 150px;" type="text"/></p>

Date: \_\_\_\_\_

## PART 1 – GENERAL

### 1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property.<sup>1</sup>

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

### 1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to 1 December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The/-

---

<sup>1</sup> Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

### **1.3 LIABILITY**

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

### **1.4 INTELLECTUAL PROPERTY**

Any intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

### **1.5 PAYMENT**

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

### **1.6 CANCELLATION**

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection. /-

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

### 1.7 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

### 1.8 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Market Value" is *The estimated amount for which a Property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion;*
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member of partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

---

<sup>2</sup> Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct

### PART 2 – DESCRIPTION OF THE REPORT

#### 2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company.

#### 2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, *visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.*

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

#### 2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyors opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.

2.3.3 Category 1: No immediate action or repair is needed.

**WARNING: /-**

**WARNING:** If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable. Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

### 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

### 2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

### 2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

### 2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

*Market Value* "The estimated amount for which a property should exchange on the date of valuation within a willing buyer and a willing seller in an arms-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion." In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc from the valuation. In the case of flats, the following further assumptions are made that:

- \*There are rights of access and exit over all communal roadways, corridors, stairways etc and to use communal grounds, parking areas, and other facilities;
- \*There are no particularly troublesome or unusual legal restrictions;
- \*There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" /-

## TERMS AND CONDITIONS

"Re-instatement cost" *is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form* unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.
